### Online Pizza Delivery - [GitHub](#)

#### PHP | MySQL

An online food ordering system can be defined as software that allows restaurant businesses to accept and manage orders placed over the internet.

### Data Structure Visualization - [GitHub](#)

#### D3Js | React

The best way to understand complex data structures is to see them in action. We've developed interactive animations for a variety of data structures. Our visualization tool is written in javascript using the HTML5 canvas element, and run in just about any modern browser -- including iOS devices like the iPhone and iPad, and even the web browser in the Kindle!
